[Comes to Tibet:](#) Jamestown FDN: China Brief

Volume: 20 Issue: Adrian Zenz: 17 SEP 2020: *"The labor transfer policy mandates that pastoralists and farmers are to be subjected to centralized "military-style" (军旅式, junlüshi) vocational training, which aims to reform "backward thinking" and includes training in "work discipline," law, and the Chinese language. Examples from the TAR's Chamdo region indicate that the militarized training regimen is supervised by People's Armed Police drill sergeants..."* Readers of Dr. Evil will recognize 'Chamdo', i.e. 'Cham' or 'Kham' as the place where Mao's First Front (Central Red) Army got its' patooties shot off in 1935 by Tibetan pastoralists during the Long March, accounting for the CCP's 70 year case of the ass. Like an elephant, the CCP never forgets.

But wait, there's good news! We're going to do it to everybody else

[Tiny Muslim community in China's Hainan becomes latest target for religious crackdown:](#)

SCMP: Eduardo Baptista: 28 SEP 2020: The latest moves banning traditional dress in schools and government offices targeted the Utsuls, a little-known population of around 10,000 people based in Sanya, a city on the island province of Hainan. The CCP is increasing surveillance of residents in Muslim neighborhoods to "resolve problems" (**I'll bet they will**). Tighter restrictions on religious and "Arabic" architecture will be imposed. An order banning the hijab from schools prompted protests from schools in Utsul neighborhoods earlier this month.

**Move over Uyghers, Hui, Tibetans and Mongolians there's a new kid in town – the Utsuls! Who?** Yea, that

pretty much sums it up. Dr. Evil suggests black market operations with disaffected minorities who just happen to live next to the South Sea Fleet's submarine base west of Sanya. Hummm, let's see....what other non-Han could we economically assist on Hainan? Old SF'ers (Vietnam era) will recognize the Hmong, sometimes referred to as Montagnards. Many of Hainan's tribes are restricted to reservations whose economy is centered on native dances and handicrafts for Han tourists. **Bet they're happy about that!**

**No, really! We're here to help**

**Chinese Companies Flocking to Southern Myanmar's Industrial Complex Megaproject:** The Irrawaddy: Nan Lwin: 25 SEP 2020: Chinese companies including state-owned energy giants are seeking opportunities to invest in the Dawei Special Economic Zone (SEZ), a US\$8-billion (10.4-trillion-kyat) strategic project in southern Myanmar's Tanintharyi Region that is set to be Southeast Asia's largest industrial complex. **[Don't hold your breath.]** The 196-sq.-km project includes a deep seaport **[Oh, they've never use that for subs and frigates!]** and is expected to be a potential boon for firms currently relying on the transport of goods via the crowded **Malacca Strait**. *"China has ambitious goals when it comes to access to the oceans. The Dawei SEZ would serve as a potential hub for China. Chinese*

*companies seem to think Dawei could become another door to access the [Indian Ocean] for China,"* Dr. Myint San, vice chair of the Dawei SEZ management committee, said. Proposals for refinery/energy projects in the SEZ include Hong Kong New Energy Investment Holdings Limited, China HuanQiu Contracting & Engineering Co., Ltd (HQCEC), China Petroleum Pipeline Engineering Co., Ltd (CPP) and China Energy Engineering Corporation (CEEC). **['CCP'? Didn't the Party trademark that?!]** CCP is a subsidiary of the Chinese state-owned China National Petroleum Corporation (CNPC), the main shareholder in a controversial twin oil and natural gas pipeline project running in parallel from the port of Kyaukphyu in Rakhine State on the Bay of Bengal through Magwe and

Mandalay regions and northern Shan State before entering China. **Dr. Evil suggests assisting the Local Indigenous Non-Han diaspora Constituencies (LINC)s stand up businesses/dominate supply chain components to parasite off of any CCP funded construction efforts. While it's all a CCP SOE insider ball game, politics requires scraps for the local boys. No reason not to see what the SOEs are doing through local eyes.**

[Cambodian compatriots in Hunan sent congratulations to Chinese officers and soldiers in the "joint training" in Cambodia](#)

On March 17, local time, Cambodian compatriots from Hunan voluntarily visited a training base in Kampot Province, Cambodia, to visit with Chinese officers and soldiers who participated in the "Golden Dragon-2019" Sino-Cambodian joint training in Cambodia. They also sent beef, pork, fruits and other. The picture shows the group leader Shu Ke of the joint training Chinese guidance group welcoming (left) the visiting Hunan Township personally sent congratulations to the leader Ai Shengfu (middle) and

his party. Photo by China News Agency reporter Huang Yaohui. **Dr Evil finds this interesting. Typically, it's Fujian Province overseas Chinese doing United Front Work but here we see Hunan placing people and businesses in Cambodia. I'm guessing, but perhaps the Governor of Hunan Province is trying to get noticed as an energetic backer of Xi's current emphasis on United Front activities. Dr. Evil will have to look into which province dominated Chinese investment and construction in Sihanoukville's recent gambling construction debacle.**

[Ding Xuexin Meets with Ai Shengfu, President of the Hunan Federation of Overseas Chinese Businessmen in Cambodia](#)

Source: Chinanews Client Release Time: 22:22, May 20, 2020

On May 20, Ding Xuexin, vice minister of the United Front Work Department of the Hunan Provincial Party Committee and Party Secretary of the Hunan Institute of Socialism, met with Ai Shengfu, chairman of the Federation of Overseas Chinese Businessmen and his party in Changsha Said Cambodia. Ai Shengfu said that in recent years, more and more overseas Chinese from Hunan have set up businesses in Cambodia. "We are excited to see all kinds of information about the development of our hometown in Hunan, Cambodia and overseas Chinese businessmen, and sincerely wish the lives of the people in our hometown better and better." Ding Xuexin said

that he hopes that the Cambodian Hunan Overseas Chinese

Merchants Federation will further pursue the principles of affinity, sincerity, benefit and tolerance, and strive to serve the local community in Cambodia. Ding Xuexin said "You live happily and work

happily in Cambodia, and being able to be welcomed and praised by the people of the country where you are located is your greatest contribution to your hometown and your home country." **So, we're talking Departments 4, 9 and 10. It's a United Front bingo! It is through qiao-xiang, hometown affiliation and xiang-qing hometown affection that the CCP's United Front obtains placement, access and use of these associations.**

[**But, but....that would be evil!**] Where this is not possible, propaganda work may fall to the CPC Central Committee's International Liaison Department, which is responsible for exchanges with foreign parties. The International Liaison Department has been active in its interactions with Estonian politicians. He and his teenage boy Arafat left northwestern China and crossed the border into Hayat's native Pakistan. The two had been in Pakistan for three weeks when they received a phone call from back home in the Chinese region of Xinjiang. Hayat's wife, an ethnic Uighur, had been detained. He and Arafat raced to the border, where Chinese police were waiting. They arrested Arafat, a Uighur like his mother, saying he would be questioned on what he had done in Pakistan. "You'll have your son back in a week," the police told him that day in 2017. Arafat would be lost to him for two years."

The Executive Assistant Commissioner of CBP's Office of Trade (OT) directed the issuance of a Withhold Release Order (WRO) against the seafood harvested

by the Da Wang based on information that reasonably indicates the use of forced labor, including physical violence, debt bondage, withholding of wages, and abusive living and working conditions.

On Monday (14 SEP), CBP issued five WROs as part of an ongoing effort to crack down on the CCP's campaign. DHS Acting Deputy Secretary Ken Cuccinelli said in an interview that "The office of Trade has done a very good job in building the cases for these five WROs." Cuccinelli said that no American worker and no American company "should have to compete against genuine slave labor..."
